WORK EXPERIENCE

8 MAY 2023 – CURRENT Rome, Italy

FREELANCER, IT SERVICES AND SOLUTIONS FREELANCE AT WWW.FIASCONARO.INFO

Specialist in creating tailored solutions for companies in the IT industry.

I mainly work on RPA and software development.

I create content classification systems, develop predictive and statistical systems as a Data Scientist, and analyze data as a Data Analyst. I integrate data with other systems using Business Intelligence software.

My expertise lies in extracting organized data from unorganized or partially organized sources across different file formats, such as PDF and DOCX.

I specialize in the development of cutting-edge and highly refined processes that leverage the power of NLP, machine learning, and deep learning.

My current freelance positions are:

- Cybersecurity Risk Analyst at one of the major telecommunications companies in Italy
- Lead Developer Frontend and Backend for various companies/clients in Europe
- Senior RPA Developer on www.rpadepveloper.net and for various companies/clients in Europe
- Business Manager at CloudRealTime
- I specialize in delivering Microservices (Usually I host those services on the Fiasconaro.info platforms) within the Cloud environment. I also develop Custom Solutions using Docker Containers to generate Docker Images. Additionally, I create scalable instances to optimize software automation processes.

20 MAR 2023 – 6 MAY 2023 Rome, Italy

PROJECT MANAGER & FULL STACK DEVELOPER BWOW SOLUTION S.R.L.

I have developed software that specializes in parsing PDF files of Italian tax forms known as "Modelli Unici". I also create software for parsing Cribis/Crif model PDF files and for downloading State Aid files. Additionally, I develop an intelligent Chatbot engine software that uses Machine Learning and Artificial Intelligence algorithms. This software interprets user input and performs actions to generate complex reports and process requests for banking ratings and related services.

3 NOV 2020 Rome, Italy

PROJECT MANAGER, RPA SENIOR MANAGER, IT CONSULTANT, RPA DEVELOPER AND SR. SOFTWARE ARCHITECT SIAED S.P.A.

I am the technical manager, Team Leader and project manager in RPA (Robotic Process Automation), with the role of "head of software development and automation". Mainly I'm also a senior software developer with the responsibility of designing the software solutions architectures. I like to develop in Python and many other programming languages I use for the interaction through the applications like as web based application I use PHP Language, creation of interconnections between systems and software (Custom REST API and OAS 3.0), I also Know How to make projects and software development for Robotic Process Automation (Blue Prism, Automation Anywhere, UiPath, Automate HelpSystem, Python Automation).

I like to make Integration also with third party software using API of and / or SOAP, Structural development and database administration on MYSQL, MS-SQL, SQLite environments; I make custom and Ad-Hoc development with using various programming languages by using integration of standard and non-standard libraries and application integration APIs for RPA software (e.g. OCR libraries, Tesseract), Computer Vision with OpenCV by using of tools for Intelligent Automation and content categorization to develop automation processes on a statistical / decision basis with additional usage of libraries for Natural Language Processing (NLP) and NLTK as well as development of Engine for the text content classification and Machine Learning.

13 MAR 2019 – 13 NOV 2019 Roma, Italy

PROJECT MANAGER ACCENTURE S.P.A.

Manager for the development group of RPA automation processes & Team Leader.

My main duties and responsibilities were based on offering the best custom solutions in the RPA field, management of a working group composed of 8 developers (in the Rome office) and consecutive alignment with the AMS (Application Maintenance System) group on projects completed with the other 7 developers of the Milan group.
